REMARKS:

1. No student should enter the Senior Class, Scientific, until all the subjects of the preceding part of the course have been completed.

2. Students not wishing to take either of the above courses, are permitted to select from them such subjects as they are competent to study, and can recite with the regular classes, provided that they pass the entrance examinations in Arithmetic, Elementary Algebra, English Grammar and Geography.

3. All the students are required to attend the worship of God in the Chapel daily, and to recite a Bible lesson weekly. Students of the Classical and Scientific Courses will study select portions of the Scriptures, in addition to the usual text books on Moral Philosophy and the Evidences of Natural and Revealed Religion. The President will give frequent lectures on manners, morals and religious duties, intended to train the students to the life of Christian ladies and gentlemen. All who do not reside with their parents are required to attend public worship and Bible class, in some church, on the Sabbath. Students' prayer meetings have been organized; they are well attended. The Faculty regard it as an important part of their work to labor for the moral and spiritual welfare of the student.

4. The degree A. B. is conferred on students who complete and pass satisfactory examinations in the Classical Course.

The degree of B. S. is conferred on students who complete and pass satisfactory examinations in the ScientificCourse.

III. NORMAL COURSE.

The regular courses of the College accomplish the ends of a Normal Course. A class in the *Theory and Practice of Teaching* and *The Science of Education,* is organized out of each Senior Class. Any graduate passing an examination in the above subjects, and a special examination in the subjects required of Teachers in the Public Schools, will be entitled to a Teacher's Diploma.

IV. HONOR COURSE.

I. A course of study, additional to the ordinary or degree course, known as the Honor Course, has been established.

II. The Honor Course includes six departments, in any one or more of which a student may graduate with Honors, first or second, according to the attainments made. These honors are in no sense competitive. As many as complete the prescribed course receive them. The departments of the Honor Course are as follows:

1. The Classics, including Latin, Greek, Hebrew, French and German. 2. Mathematics. 3 Natural Science. 4. Philosophy, including Metaphysics, Logic, Moral Philosophy, Political Economy, and the Constitution of the United States. 5. The English Language, including History. 6. The Bible.

In general, not exceeding one-half as much matter in addition to the amount required in the ordinary course, in any of the above departments must be mastered in order to a second Honor; and additional thereto, an amount equal to that required in the ordinary course, in order to a first Honor. No student who does not rank 9 in the subjects of the ordinary course will be admitted to an examination for Honors.

III. Each Professor furnishes gratuitously to candidates for Honors in his department such assistance as they need. Those desiring regular recitations arrange for them with the Professors, or any other persons they may select, on such terms as may be mutually satisfactory.

IV. Honor examinations will be held the first week of each vacation, Senior included, at which candidates for the degree of B. A. or B. S may present themselves; and those passing in any subject of any department shall be credited with the same. In the case of every candidate, the result of all the examinations will determine the Honor attained.

V. Candidates for the degree of M A. may in like manner present themselves for examination in any of the departments named above, at any Honor examination, and those passing in any subject will be credited with the same. The result of all these examinations will determine the Honor attained on taking the M A degree.

VI The result of all these examinations will be entered on the College Register, and publicly announced.

V. NEW SCIENTIFIC COURSE.

The following, when approved by the Trustees and Directors, will be substituted for the preceding as THE SCIENTIFIC COURSE:

First, or Sub-Freshman Year.

1. Cæsar and Virgil, 3 books of each; 2. German; 3. Loomis' Algebra, and 3 Books of Geometry; 4. Elocution, exercises in spelling, pronunciation and composition, with Irving's Bracebridge Hall; 5. The Acts of the Apostles.

Second, or Freshman Year.

1. Cicero's Orations, or Livy; 2. German; 3. Loomis' Geometry, Trigonometry and Surveying; 4. Etymology and Derivation, Analysis and Syntax, Macaulay's Essays, Elocution and Composition; 5. John's Gospel.

Third, or Junior Year.

1. Horace and Tacitus; 2. Spherical Trigonometry, Algebra, Analytical Geometry or Conic Sections, Calculus and Review of Mathematics; 3. Bain's Rhetoric—style, versification and poetry, Trench's Study of Words and English past and present, History and Structure of the English Language, Collier's English Literature, with Lectures Elocution and Rhetorical Exercises; 4. Chemistry, Physiology, Geology and Natural History; 5. The Epistle to the Romans, and Ethics.

Fourth, or Senior Year.

1. Metaphysics, Logic and the Intuitions (McCosh); 2. Natural Philosophy and Astronomy; 3. Bain's Rhetoric—narration, description, exposition and persuasion, Whately's Rhetoric—conviction, with Lectures on Rhetoric, Review of the Course in the English Language, Shakespeare, Philosophy of English Literature, Criticism, and Rhetorical Exercises; 4. Constitution of the United States and Political Economy; 5. Laws of Business, Investigation, Moral Philosophy, &c.; 6. The Epistle to the Hebrews, and Theology.

NOTES.

1. No new class will be organized in the old Scientific Course, but those who have commenced it, will be graduated in it. Sub Juniors of this year may enter as Freshmen Scientific, next.

2. Graduates of the new course will receive a diploma in Latin.

3. Students who can pass the entrance examination in English Grammar, Arithmetic, Elementary Algebra and Geography, will be permitted to pursue such studies as they may select for themselves. Those who pass the examinations in these subjects, will receive a certificate of proficiency in them.

No students admitted to study select subjects who cannot pass the above examinations.

4. Candidates for the Sub-Freshman Class of either the Classical or Scientific course, who cannot pass the examinations in Latin necessary to commence Cæsar, will be entered as select until up in Latin. Opportunity for bringing up the Latin necessary for the Sub Freshman classes, will be afforded in the Academy to all who desire it.

5. Under ordinary circumstances, no student should attempt to enter the Sub-Freshman class of either course, until fully up with it.

TEXT BOOKS AND BOOKS OF REFERENCE.

Harkness' Latin Grammar, and Cæsar, Allen's and Greenough's Virgil and Cicero: Chase and Stewart's Livy and Horace; Tyler's Tacitus; Kingsley's De Oratore; Goodwin's Anabasis, &c.; Anthon's Memorabilia; Champlin's Demosthenes; Tyler's Apology and Crito; Woolsey's Alcestis: Loomis' Mathematical Course; Comfort's German Course; Longuellier and Monsanto's French Grammar; White's Latin Dictionary; Liddel and Scott's Greek Dictionary; The Students' Series of Histories; Smith's Classical Dictionary; Brown's Roman and Greek Literature, and Allen's Classical Handbook.

The continental system of pronouncing Latin and Greek has been adopted.

ACADEMICAL DEPARTMENT

This department has been re-organized with the intention that the facilities afforded shall be second to none in any similar institution. The Academy building is pleasantly situated, commodious and comfortable, in thorough repair, newly fitted up and furnished.

The following courses of study have been adopted:

1. *A Preparatory Course of two years' study for those designing to enter* MONMOUTH COLLEGE.

2. *A Grammar and High School Course of three years, practical and thorough, for such as do not intend to enter College.*

3. *A Normal Course and Practical Training School of two and one-half years to prepare teachers for common schools.*

I. THE MONMOUTH COLLEGE PREPARATORY COURSE.

This Course has been extended, and students will have two years' instruction in Mathematics, Latin and English, to fit them for College. It is aimed to make this instruction thorough and complete, and also to provide facilities for students to master the common school studies if they have been neglected.

STUDIES AND TEXT BOOKS.

1st. JUNIOR YEAR.—Penmanship; Worcester's Speller; Webster's High School Dictionary; Wilson's Fifth Reader; Anderson's United States History; English Exercises; Greene's English Grammar; Stoddard's Intellectual Arithmetic; Practical Arithmetic; Harkness' Latin Grammar and Latin Reader; Bible.

2d. SENIOR YEAR.—Penmanship; Spelling; Reading; English Analysis; Punctuation; Intellectual Arithmetic; Arithmetic; Elementary Algebra; Latin Grammar and Latin Reader; Cæsar; Bible.

II. THE GRAMMAR AND HIGH SCHOOL COURSE.

This short, practical course will give a thorough training in English studies, and in the elements of the Natural Sciences and the Mathematics. It will be the aim to make this as useful as possible to those who cannot afford to take a collegiate course, and it is believed that the instruction and mental training will be found to be invaluable by those who complete the studies of this department.

The studies and text books are the same as those of the Normal Course, except that an extended course of Ancient and Modern History takes the place of Theory and Practice of Teaching.

III. THE NORMAL COURSE.

The special attention of those desiring to qualify themselves for teaching in common schools is invited to the practical Training School department. Every student will be thoroughly drilled in the studies pursued in the public schools, and will be instructed in the best methods of teaching them.

The time required to complete this course is two and one-half years, and ends with the month of March, in order that graduates may secure schools for the Spring term.

A Teacher's Diploma will be awarded to all who complete this course to the satisfaction of the Faculty.

STUDIES AND TEXT BOOKS.

1st. JUNIOR YEAR.—The same as the Junior Class, Preparatory Course, except that Physical Geography and Zoology take the place of Latin.

2d. MIDDLE YEAR.—The same as the Senior Class, Preparatory Course, except that Physiology and Botany and Philosophy take the place of Latin.

3d. SENIOR YEAR.—Rhetoric and English Language; Geometry; Mental Science; Theory and Practice of Teaching; Model Recitations; Review of Common School Branches; Bible.

ADMISSION, ETC.

The Academy, like the College, receives students of both sexes on the same footing. Applicants should be at least thirteen years of age.

No examination will be required for admission to the Junior year, but promotion or advanced standing in any course, can be secured only by passing rigorous examinations.

The students of the Academy will be entitled to the same privileges as the College students, in regard to Libraries, Cabinet, Experiments and Lectures.

Students of all courses in the Academy will be instructed in the principles of Single Entry Book Keeping, and in the uses of business forms.

During the entire course there is a weekly Bible recitation. Rhetorical exercises will be required of all the students. The President will deliver lectures, monthly, on manners and morals.

To secure the full advantages of the course, the students should enter at the beginning of the college year and remain until its close. No student can be absent a term without great loss If unable to complete the course without interruption, it is ordinarily much better to discontinue an entire year.

MUSIC AND ART.

The department of Music, under the charge of Prof. S. H. PRICE, and the department of Art under the charge of Miss C M. WHITE, afford facilities for the study of these subjects seldom found in an institution of this character.

SPECIAL REGULATIONS.

I. The requirements for admission to the several classes are fully stated in the outline of the different courses. No candidate will be admitted to the Sub-Freshman or Sub-Junior class whose deficiencies exceed what may be made up in five months by an additional recitation. Candidates for advanced standing must furnish satisfactory evidence of proficiency in all the previous studies of the course they propose to take. No student of known immoral character, or whose influence is likely to be injurious to good order, will be admitted.

II. The Statutes of the College, Chapter II, Section 3, provide that "No student shall be permitted to enter at a later period of the course than the commencement of the first session of the Senior year." The spirit of this law, in the judgment of the Faculty, requires at least one full year's attendance of a student on the exercises of the College in order to graduation. Under no circumstances will this rule, as thus interpreted, be relaxed while the above statute remains unrepealed.

III. The Senate has adopted the following as an additional chapter to the College statutes:

"SECTION 1. All persons matriculating shall be regarded as students, and on payment of the required fees shall be entitled to all the privileges of the College.

"SEC. 2. Connection with the College is terminated by graduation or dismissal, honorable or otherwise.

"SEC. 3. The privileges of the student shall be suspended in all cases of failure to pay the required fees and attend on instruction; *provided*, however, that the following privileges, namely, that of examination with his classes, active membership in the societies, representing societies and classes on public performances, and the use of the Library and Reading Room, may be granted to students temporarily absent for a period not exceeding one year, on written permission from the Faculty and the payment of two dollars per term.

"SEC. 4. All persons enjoying any of the above privileges shall be subject to College discipline, the same as if in actual attendance."

The Faculty judge the attendance of a student on the exercises of the College at least three fifths of any year as necessary to complete satisfactorily the work of that year, and, therefore, will not, under ordinary circumstances, grant leave of absence, with the privileges of examination without recitation, during any one year exceeding four months. No student should attempt to prepare for examination in more than two fifths of the subjects of any year, without recitation. The Faculty are unwilling to grant leave of absence to any Senior. Seniors should be in attendance the entire year.

IV. There are during the year public exhibitions of the College classes, as follows: Of the Junior class, in May; of the Freshman, in January; and of the Sophomore, in November. These exhibitions are held on such evenings and in such places as the Faculty may appoint.

V. At the last meeting of the Senate, the following was added to the statutes of the College as Sec. 4 of Chap. XIII: It shall be unlawful for any student of this College hereafter, to become a member of any secret College fraternity, or to connect with any chapter of such fraternity.

VI. In regard to marking, grading and examinations, the following principles have been adopted:

1. Each recitation is marked on a scale of 10—9 indicating ordinary excellence, 10, extraordinary; these marks are averaged in each subject, monthly, and entered on the Monthly Record. The actual attendance is marked on the same scale, and entered on the same record. To be marked 10, in attendance, on the Monthly Record, the student must have been actually present at every roll call of his class during the month.

2. Each class is examined on each subject as soon as completed, the examination of each student is marked on the same scale and entered on the Annual Record. To pass, the student must answer at least 70 per cent. of all questions asked him correctly. No student is credited with any subject until he has been examined and passed in it. The average of the marks received for all the recitations and for the examination, in any subject, determines the student's grade in that subject.

3. The Grand Average of the marks received in all the subjects in which the student has been examined and passed with his class during the year, and of the marks for attendance during the same time, determines the student's rank in his class. This is entered on the Annual Record.

4. No student in the Collegiate Department is promoted from a lower class to a higher, whose deficiencies exceed what may be made up in one year by a single recitation daily.

5. The Salutatory and the Valedictory, on Commencement Day, are delivered, the former by the Senior Scientific, the latter by the Senior Classical, who rank highest.

6. In order to secure thoroughness in the elementary subjects, each College class will be required to pass a special examination, after a review conducted by a Professor, in Geography, Arithmetic, English Grammar, The Use of the English Language, and Business Laws and Forms: and in addition to the above, Classical students, in Latin and Greek Grammar. To pass in these subjects the students must make an examination grade of 9. Students admitted from other Colleges, whether on certificate or examination, must pass in all the above subjects in which the class which they may enter may have been examined. The terms during which these reviews and examinations will take place are indicated in the "Courses of Study."

VI. Reports are sent to parents or guardians at the close of each term. The President should be notified of every case where a report fails to come within ten days after the close of the term.

VII. The statutes expressly forbid students to use intoxicating drinks as a beverage, to play cards, to frequent drinking, gambling, or billiard saloons, or improper places of resort of any kind. The Faculty judge places of amusement, commonly called "*balls*" and "*dances*," to be improper places of resort for students.

VIII. Ladies and gentlemen are admitted to all the privileges of the College on the same footing.

Additional Information

LIBRARY.

The Library contains about two thousand volumes, selected expressly for the College. It is accessible to all the students. The County Library and Reading Room is open to all the Students free of Charge.

APPARATUS.

An extensive Philosophical and Chemical Apparatus has been procured and is now in successful use. It affords the means for a satisfactory illustration of the most important principles in the various departments of Astronomy, Natural Philosophy and Chemistry.

CABINET.

The College Cabinet, which already contains a large assortment of Coins, Geological specimens and other articles of interest, collected by Dr. Barnett in Palestine and Egypt, as well as a Geological Cabinet donated by the State, has, recently, been enriched by the donation of a valuable assortment of Minerals by Rev. T. D. Davis, of Missouri, the purchase of a large variety of Corals, the donation by the Rev. J. C. Nevin, of Canton, China, of his valuable collection of Chinese Curiosities, and by the contribution by Rev. Dr. Lansing, of Cairo, Egypt, of a cast of the famous Tanis Stone. The College Cabinet is now one of the finest in the State.

LITERARY SOCIETIES.

There are four Literary Societies in the College—the *Philadelphian*, *Eccritean*, *Amateurs des Belles Lettres*, and *Aletheorian*. These are all on a good footing, and afford to their members respectively the opportunity of improvement in the branches of learning for the promotion of which they are established.

GOVERNMENT.

It is the aim of the Faculty to secure good order and diligence in study by the force of moral and religious principles, rather than by direct exercise of authority. Those who persist in neglecting their studies, or in pursuing disorderly courses, or in exerting an evil influence, will not be permitted to remain in connection with the College.
